Booth information:

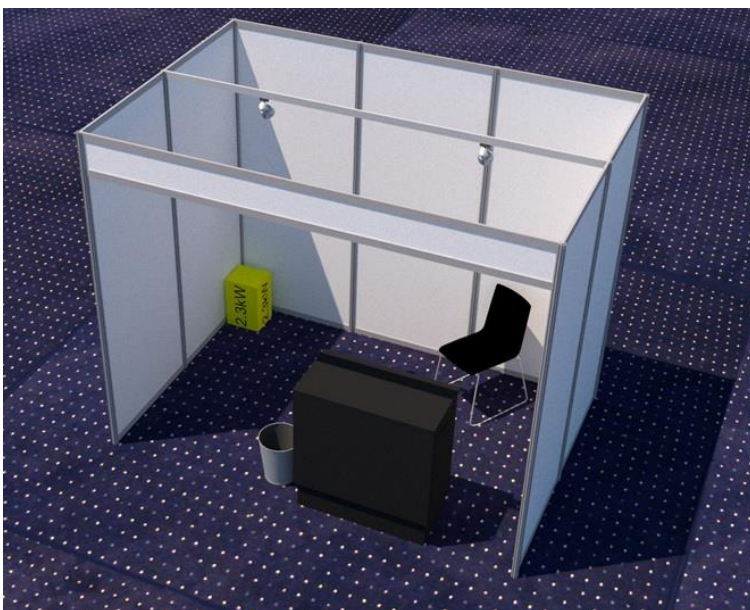

Illustration 1 shows a 6 m² standard booth with three partition walls and one open wall facing the aisle. The standard booth will have two partition walls and two open walls facing the aisle if the booth is located by a corner or end.

MNE
CPH
2018

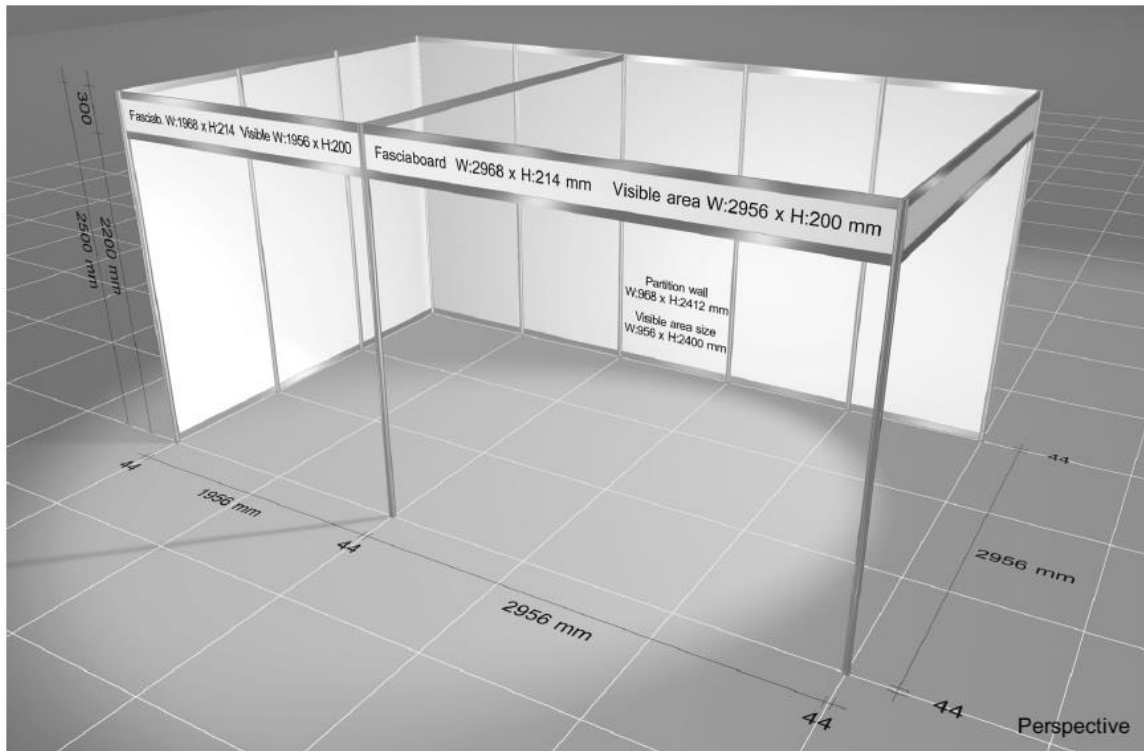

Illustration 2 shows the different measurement of the booth components.
Please note that the image does not correspond with any of the three booth types.

Partition walls:

Material: Plastic laminated chipboard
Color: Off-White
Dimensions: (WxDxH): 300 x 200 x 250 cm.
Walls are divided into sections of 1 meter.

Decoration:

Folio:

It is possible to have foil printed and mounted on the wall panels.
Price for mounting/dismantling + print per WALL (One wall is: W:1 m / H: 2.5 m): Can be ordered through Bella Center web-shop.
Please notice that print ready files should be forwarded no later than 4 weeks before the conference.
In case you consider to mount foil on the wall it is highly recommended to utilize the service from Bella Center as they will undertake the full responsibility for the mounting and especially the dismantling. In case you bring your own foil and it is unremovable you will be invoiced for any damage on the walls.

Poster:

You are allowed to mount posters on the walls. Please utilize following tapes only:
Duplo-Coll 43102, TESA tape 4964 or TESA Power-Strips.
Please note that you will be invoiced for any damage made on the walls.

Other:

You can purchase hooks onsite for hanging of painting, etc.
Weight limited: 5.0 kg
Price per hook: Can be ordered through Bella Center web-shop.

**Floor:**

Texture: Carpeted concrete

Carpet colors: Standard color: Dark blue (P 425C).

Other standard colors can be ordered with surcharge: Black (Pantone black C), cocos (Pantone 465C), electric blue (P 287C), flecked black (P 432C), fuchsia (P 219C9), graphite, mandarin (P 715C), night blue (P 2955C), nut (P 7500U), pistachio (P 366c), red (P199 C), sky blue, spring green (P 363 C), violet (P 268C), yellow (P 108C).
Can be ordered in Bella Center Web-shop.

Chair:

Color: Grey

Counter:

Dimensions: (WxHxD): 100 x 100 x 40 cm

Color(s): White or black (color can't be ordered or guaranteed)

Shelves: 2 shelves

Locker: Yes

Lighting:

Number: 2 bulbs

Voltage: 2 x 75 W halogen spots

Note: The exhibition hall has no daylight, but sufficient lighting from the ceiling.

Covered booth:

As the hall has a sprinkler system in the event of a fire, it is only permissible to cover your stand with fireproofed and water permeable fabric. It is also possible to construct a ceiling with solid materials or as an evenly distributed panelled/louvred ceiling – however only covering max. 40% of the covered area.

All stands which have been built with two stories must be covered by a sprinkler system – this also applies to waterproof ceilings, closed rooms as well as vehicles, containers etc. which are not sales articles but are only used for decoration. Dispensation may be granted for actual sales items if they do not exceed 9 m².

The sprinkler system can be installed by Bella Center Copenhagen, and we are happy to provide a non-binding quotation for the work. Connection to main sprinkler pipes must always be undertaken by Bella Center Copenhagen. The rest of the sprinkler system may be installed by Bella Center Copenhagen or another authorized technician (according to SKAFOR's regulations).

Also construction materials need to fulfill some basis requirements. See page 37:
